LAND
ULTIMATE HEAD PROTECTION

SPECIFICATION SHEET

CLIMBING HELMET

CLIMBPRO

Ultra-lightweight helmet with exceptional mobility for climbing, rescue and construction applications.

220 g	53–62 cm	10 vents	EN 12492	EN 397
Helmet weight	Head size range	Optimized airflow	Mountaineering	Industrial safety

KEY FEATURES

Ultra-lightweight design — weighs only 220 g, providing exceptional mobility for climbing, rescue and construction applications

Quick-release safety buckle — integrated fast-action buckle fastens and unfastens securely in under one second, ideal for emergency use

Up-N-Down adjustment — precision quick-turn dial and side wings for a tailored, secure and comfortable fit; fits 53–62 cm

Optimized ventilation — multiple aerodynamic vents ensure airflow and temperature regulation during strenuous activity

Accessory slots — built-in universal slots for headlamps, visors and hearing protection, expanding functionality across environments

Customizable — available in multiple colors, with branding/logo printing on request

BUILT FOR

Climbing • Rock climbing • Rescue operations • Fire protection • Work at heights

CERTIFICATIONS

EN 12492	Mountaineering and climbing protection
EN 397	Industrial safety requirements

MATERIALS & INTERIOR

Shell	ABS (Acrylonitrile Butadiene Styrene), high-impact outer shell for durability
Impact liner	EPS (Expanded Polystyrene), energy-absorbing for impact protection
Comfort liners	Polyurethane; removable, washable padding for extended comfort
Straps	High-tensile webbing, reinforced for strength and reliability
Ventilation	Vented, 10 vents

CARE

1. Before use, inspect the ABS shell, EPS liner, chin strap, buckle, ratchet system and accessories for damage or excessive wear.
2. Clean with mild soap and lukewarm water. Avoid harsh chemicals, solvents and abrasive cleaners.
3. Remove and clean the moisture-wicking padding as needed; let all parts dry completely before reassembly.
4. Store in a clean, dry, protected location away from excessive heat and chemical exposure.
