

TYPE I CLASS C SAFETY HELMET

PRODUCT FEATURES:

- **Airflow Ventilation System:** Switchable vents designed to improve breathability in hot environments.
- **Enhanced Accessory Integration:** Earmuffs, Universal Headlamp, Sunshade, Clear & Mesh Faceshield, Clear & Mirror Visor
- **Comfortable Fit:** Adjustable ratchet with 6-point suspension system for even weight distribution and tailored fit. Fits sizes 55 - 62 cm.
- **Up & Down Technology:** Advanced dial and side wing adjustments for secure and precise helmet positioning.
- **Customization:** Option for company logo printing and reflective stickers to boost visibility and brand identity.
- **Magnetic Chin Strap Buckle:** The 4-point magnetic buckle allows for fast, convenient fastening and release, helping crews put on and remove the helmet quickly and easily.
- **Available Kits:** Arbor Kit, Visor Kit

TECHNICAL DATA:

HELMET

- **Shell:** ABS (Acrylonitrile Butadiene Styrene)
High-impact outer shell for durability
- **Inner Foam:** EPS (Expanded Polystyrene)
Energy-absorbing liner for impact protection
- **Weight:** 550g
- **Size:** 55 - 62 cm
- **Vented:** Yes

MODULAR DESIGN

- **Easy-to-Replace Components:** The 6-point suspension, sweatband/padding, ratchet adjuster, and chin strap can be replaced individually, helping extend the usable life of the helmet.
- **Replacement Parts available,** making maintenance easier without having to search for compatible third-party parts.
- **Integrated Accessory Slots:** Built-in side slots allow compatible earmuffs and other accessories to attach directly to the helmet, no separate earmuff adapter clips required.
- **Easy Maintenance:** Replace worn or damaged components instead of replacing an otherwise functional helmet.

STANDARDS & COMPLIANCE:

- Type I certified by COLTS & SEI
- ANSI/ISEA Z89.1-2014
- Class C: Certified protection for industrial safety, no electrical protection
- EN 12492: Mountaineering and climbing protection.

APPLICATIONS & CARE:

Applications: Forestry, Arborists, Climbing, Rescue Operations, Fire Protection, Industrial Worksites, Work at Height, Telecommunication Work

Care: Inspect the helmet, suspension, chin strap, and accessories before use. Replace damaged or excessively worn components. The removable sweatband is machine-washable for easier routine maintenance.
