

CLIMBING HELMET**PRODUCT FEATURES:**

- Ultra-Lightweight Design: Weighs only 220g, providing exceptional mobility for climbing, rescue, and construction applications.
- Quick-Release Safety Buckle: Integrated fast-action buckle enables secure fastening/unfastening in under one second—ideal for emergency use.
- Advanced Adjustment System (Up-N-Down): Precision quick-turn dial and side wings for a tailored, secure, and comfortable fit. Fits sizes 53 - 62 cm.
- Optimized Ventilation: Multiple aerodynamic vents ensure airflow and temperature regulation during strenuous activity.
- Accessory Slots: Built-in universal slots for mounting headlamps, visors, and hearing protection, expanding helmet functionality across environments.
- Customizable Options: Available in multiple colors with branding/logo printing on request.

**STANDARDS & COMPLIANCE:**

- EN12492: Mountaineering and climbing protection.
- EN 397: Industrial safety requirements.

APPLICATIONS & CARE:

Applications: Climbing, Rescue Operations, Fire Protection, Rock Climbing, Work at Heights

Care: Inspect the ABS shell, EPS liner, chin strap, buckle, ratchet system, and accessories before use for damage or excessive wear. Clean the helmet with mild soap and lukewarm water; avoid harsh chemicals, solvents, and abrasive cleaners. Remove and clean the moisture-wicking interior padding as needed and allow all components to dry completely before reassembly. Store the helmet in a clean, dry, protected location away from excessive heat and chemical exposure.
