EN 397	Industrial safety helmet
EN 12492	Mountaineering & climbing

MATERIALS

Shell	ABS / PP, high-durability
Impact liner	Dual-density EPS
Comfort pads	Polyurethane, removable & washable

KEY FEATURES

Modular build — snap-on front, side & back brims, visors and side inserts

Accessory rails — fit earmuffs, face shields and lights

6-point ratchet suspension — balanced, adjustable fit

4-point chin strap — magnetic quick-release buckle keeps the helmet on during falls or climbing

Custom branding — company logos, reflective decals and colors

CARE

1. Inspect shell, liner, suspension, strap, buckle and accessories before each use.
2. Clean with mild soap and lukewarm water. No solvents, harsh chemicals or abrasives.
3. Wash pads and sweatband as needed. Let everything dry fully.
4. Check accessories are secure. Store clean and dry.

BUILT FOR Construction • Utility & maintenance • Industrial safety & manufacturing
